A long History, already ...

... did we achieve our main goals?

IPST was created with the goal of
promoting the study of power system transients
by offering a platform of scientific and
technical excellence for its presentation

1995 - 2015

**20th
Anniversary**

International Conference on
Power System Transients

IPST aims at being a platform for the exchange of
scientific and technical information

related to **electromagnetic transients**
in electric power systems

... another History to be told ...
